Provided that the water taken is not in excess of the reasonable requirements of the military forces or does not curtail the supply ordinarily required by those entitled to the use of such water supply. The Officer Commanding the forces engaged in any such practice may, within notified area or specified part thereof declare any area to be a danger zone and thereupon the Deputy Commissioner will, on application made to him by the Officer Commanding the forces, engaged in the practice, prohibit the entry into and secure the removal from such danger zone, of all persons and domestic animals during the times when the discharge of lethal missiles is taking place or there is danger to life or health.

The liberties mentioned in paragraph 2 do not authorise entry on or interference with any well or tank held sacred by any religious community or any place of worship or ground attached thereto except for the legitimate purpose of offering prayers or any place or building reserved or used for the disposal of the dead, or any dwelling house or premises attached thereto or any educational institution, factory, workshop or store or any premises used for the carrying on of any trade, business or manufacture or any ancient monument as defined in law relating to Ancient Monuments for the time being in force. This, however, does not debar entry into, or interference with any such place if it is situated in an area declared to be a danger zone, to the extent that may be necessary to ensure the exclusion from it of persons and domestic animals. In the case of a dwelling house occupied by women adequate warning will be given through a local inhabitant and entry will be effected after such warning in the presence of two respectable inhabitants of the locality.

Compensation is payable from the Defence Estimates for any damage to persons or property or interference with rights or privileges arising ffom such field firing and artillery practice including expenses reasonably incurred in protecting person, property, rights and privileges. Compensation so payable will include compensation for exclusion or removal from any place declared to be a danger zone of persons or domestic animals, such compensation to be disbursed at not less than the minimum rates prescribed in Rule 19 of the Mysore Manoeuvres, Field Firing and Artillery Practice Rules, 1951, before the exclusion or removal is enforced and will also include compensation for any loss of employment or deterioration of crops resulting from any such exclusion or removal. The Deputy Commissioner of the district will depute one or more Revenue Officers to accompany the forces engaged in field firing and artillery practice for the purpose of determining the amount of compensation, if any, payable. The Revenue Officer will consider all claims for compensation and determine, on local investigation and where possible after hearing the claimant, the amount of compensation, if any, to be awarded in each case; and will disburse on the spot to the claimant the compensation so determined as payable. Any claimant who is dissatisfied with a refusal of the Revenue Officer to award his compensation or with the amount of compensation awarded to him by the Revenue Officer, may, at any time within fifteen days from the communication to him of the decision of the Revenue Officer give notice to that officer of his intention to appeal against the decision. Where any such notice has been given, the Deputy Commissioner of the district will constitute a commission consisting of himself as Chairman, a person nominated by the Officer Commanding the forces engaged in field firing and artillery practice and two persons nominated by the District Board, and the commission will decide all appeals of which notice has been given. The commission is competent to exercise its powers notwithstanding the absence of any member of the commission, and the Chairman of the commission will have a casting vote in the case of an equal division of opinion. The decision of the commission will be final and no suit will lie in any Civil Court in respect of any matter decided by the commission. No fee will be charged in connection with any claim, notice, appeal, application or document filed before the Revenue Officer, Deputy Commissioner or the Commission.

If, during any period specified in the notification referred in paragraph 1, any person within the notified area wilfully obstructs or interferes with the carrying out of field firing or artillery practice, or without due authority enters or remains in any camp or enters or remains in any area declared to be a danger zone at a time when entry thereto is prohibited, or interferes with any flag or mark or target or any apparatus used for the purposes of the practice he will be punishable with fine which may extend to ten rupees.
